

## **Milford & District U3A Monthly E-Newsletter: December 2020**

Dear Members,

Nothing much new to report this month. Despite coming out of lockdown into Tier 2 we are still prevented from actual meetings by the new restrictions. So our U3A continues with virtual meetings via zoom only. Hopefully in January the situation might improve.

### **The Monthly Talk this Friday December 11<sup>th</sup> at 2pm**

This talk will take place online via Zoom for those of you who would like to try it. All members will receive the Zoom link the day before. If you want to join the meeting just click on the link after 1.45 on the day and you will be let into the session in time for the 2pm start.

The talk will be given by Mr David Boag and is entitled "The Highlands of Scotland". David is a professional photographer and author of 18 published books. He has lectured throughout the country as well as on cruise ships. His talk will be illustrated and should be informative, lively and entertaining.

### **New Groups**

Whilst we cannot meet indoors there is more scope for outdoor groups. We wondered whether this would be an opportunity to set up a cycling group. This would not be for the lycra speedo enthusiasts amongst us but more for those who fancy a gentle pedal along the leafy Surrey lanes with a coffee stop en route. We recognise that the winter months are not the right time to start this off but are already looking ahead to Spring and warmer, drier weather. If you are interested in getting involved with such a group please let me know.

Similarly if you have suggestions for any other outdoor groups we would love to hear your ideas. Several of the local U3A districts have active cycling groups so we know they work well. Maybe Santa will be bringing you a nice, electric bike that needs to be tried out!

All on our committee wish you a very Happy Christmas and hope you can enjoy your 5 day freedom bubble with your family.

Jan Honeysett
